I agree. I do not see how an additional item in the Annual budget, it is not possible to undertake commitments of a character like this, involving recurring outlay.

The programme for the Irish Harbours commencing from 1929-30 may be suggested by the Irish Govt on the lines of Rs on like grant-)-

If special schemes regarding additional funds are found necessary as the programme during the course of the discussion, they may be considered on the merits with reference to the State resources at the time.

There is not much use in laying down the drainage under the houses connected with it at a later stage. I think the work is done

SIR

In forwarding herewith a copy of Municipal Council's Resolution No 220 dated 31-10-1928 to request Government to sanction a supplemental grant of not less than Rs 50,000 to the Trust Board for 3 years to accelerate the programme of house-connections and drainage schemes I have the honour to state that in many parts of the City the localities have not been sewered and linked on to the main sewer which carries the sewage to the outfall Without special grant to accelerate the progress of the scheme, it will take several years to complete the underground drainage system

Further, one connection to each house is being given at the cost of the Trust Board as per existing orders of Government - House connections have yet to be given in many streets already provided with underground sewers These house connections have also to be given side by side with the laying of the pipe line and therefore extra funds are required for the purpose

In these circumstances I request that you may be so good as to obtain the sanction of Government to the Council's Resolution and communicate the same to me at an early date

I have the honour to be
Sir
Your most obedient servant

CHIEF SECRETARY 22 DEC 1928

The Chief Secretary
to the Government of His Highness the Maharaja
of Mysore

SIR

In forwarding herewith copies of the Resolutions of the City Municipal Council and the Trust Board Mysore regarding an additional grant of Rs 50 000/- per ear for drainage and sewerage works I have the honour to state that the drainage of the City is still incomplete and very unsatisfactory During the last 25 years the Board has spent on the average one lakh of rupees annually on drainage works The remaining works require eight lakhs of rupees Owing to limited grant that is now being received the Board can not set apart more than Rs 30 000/- per year for sewerage works At this rate it will take 27 years to see the completion of drainage works

2 The Trust Board and the Municipal Council are therefore of opinion that unless a special grant is sanctioned it is not possible to make appreciable progress in respect of these works They have accordingly resolved to request Government to sanction an additional grant of Rs 50,000/- a year for these works in view of the amount required for completing the works I may also state that the question of additional grant is being pressed year after year by the Trust Board

10

3 I therefore, request that you may be so good as to submit the above resolutions to Governmert and obtain their kind sanction thereto

I have the honour to be

Sir

Your most obedient servant
